

Photo & Video Content Producer (all genders)

International Live Entertainment

About us

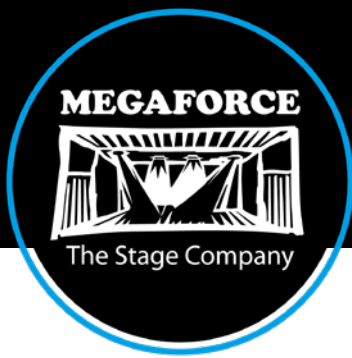

Megaforce is one of Europe's leading stage engineering companies, delivering complex stage solutions for concerts, tours, festivals, and international live productions.

Our projects combine engineering, architecture, logistics, live entertainment, and design. We work on large festival sites, stadium productions, international shows, and technically demanding stage constructions.

Megaforce is known not only for high-quality stage engineering, but also for creative ideas, strong visual concepts, and a distinctive approach to presenting complex technical projects.

To further develop our visual communication and strengthen our inhouse content production, we are looking for a Photo & Video Content Producer who can capture our projects, products, people, and construction processes in a strong and professional way.

This role is ideal for someone who enjoys visual storytelling, real projects, technical environments, international travel, and the energy of live events.

Your Role

- Produce and edit photo and video content for Megaforce projects, construction sites, products, teams, and references
- Create strong social media formats, especially Reels, Stories, behind-the-scenes clips, project updates, short edits, and simple interview formats
- Work with real footage, photos, technical drawings, 3D views, renderings, text layers, and motion elements to create clear and visually compelling content
- Support the visual communication of our stage systems, construction processes, technical details, and international projects
- Work closely with engineering, project management, sales, and external production partners
- Organize, edit, prepare, and archive photo and video assets for social media, website, sales materials, recruiting, and internal communication
- Support external film or photo productions for selected high-quality content projects

The role combines practical photo and video production with strong editing skills, technical visual processing, media organization, and close collaboration with different teams across the company.

Your Profile

- Experience in photo and video production, content creation, visual storytelling, or a comparable creative field
- Strong portfolio or practical examples of photo, video, and especially short-form video work
- Very good editing skills and a strong sense for composition, rhythm, music, typography, transitions, and visual flow
- Ability to work with technical drawings, 3D views, renderings, or visual files from engineering teams and turn them into attractive communication assets
- Good eye for atmosphere, technical details, people, construction processes, architecture, and large-scale visual structures
- Structured and reliable working style, especially in handling large amounts of visual material
- Interest in live entertainment, festivals, concerts, stage construction, technical production, architecture, design, 3D visualization, or international project business
- Willingness to travel internationally to projects, construction sites, events, and festivals, including Europe, Latin America, and Asia
- Fluent in German and good English skills

Ideally, you also bring experience with tools such as Adobe Premiere Pro, After Effects, DaVinci Resolve, CapCut, Canva, Adobe Creative Cloud, Blender, Cinema 4D, SketchUp, Vectorworks, or comparable software.

Framework

- Location: Flexible within Germany or Europe, with regular presence at Megaforce headquarters in Weingarten when required
- Full-time role
- International travel to projects, construction sites, festivals, and live productions is required, including assignments in Europe, Latin America, and Asia
- Flexible working hours during project phases and festival season may be necessary
- Close collaboration with the Brand, Content & Communications Manager, management, project teams, engineering, sales, HR, and external production partners

What We Offer

- A creative and hands-on role within the international live entertainment industry
- The opportunity to further develop Megaforce's inhouse photo and video content production
- Access to strong visual projects, large stage constructions, international productions, and real behind-the-scenes moments
- A company known for creative ideas, strong visual concepts, and a distinctive approach to presenting complex stage engineering projects
- Direct collaboration with the Brand, Content & Communications Manager and the management team
- Short decision-making paths and an entrepreneurial environment
- A unique mix of technical precision, live event energy, design, and visual storytelling
- The opportunity to create content that supports brand communication, sales, recruiting, and international visibility
